AWARDS 2020

## Senior Lender of the Year: Americas

### Golub Capital

Golub Capital raised more than \$8 billion in new investor equity and debt over the past 12 months. It also originated more than 140 mid-market loans totalling around \$12.2 billion of financing commitments. The firm also led or co-led 12 unitranches above \$500 million and led the two largest dollar-denominated unitranches to date at more than \$2 billion each. David Golub, president of Golub Capital, said he is proud of the way his firm has risen to the challenge of covid-19: “Over 80 percent of the portfolio is in areas like business-to-business software that have continued to perform well and grow despite covid,” he told Private Debt Investor.
